Turbine Flow Meters

Grooved Turbine Flow Meters

Electronic Data Devices offers a complete line of turbine flow meters that are available with ranges from 0.3 GPM to 5500 GPM covering a wide range of measurement applications. Our turbine flow meters are manufactured to the highest quality standards, and are available with a wide range of end connections compatible with many applications. Some of the typical applications include: oilfield waterflood, production, well servicing, pipelines, mining, chemicals, food and beverage industry, and most other liquid applications.

Grooved end turbine flow meters are available in the sizes below. The maximum operating psi is determined by the victaulic clamp rating.
